

Traffic Products and Warning Systems

I'm going to
make you an offer
you can't refuse.....

You need to understand one thing. I know the right people to solve your SPOT DEVICES 'problem.' My associates at ELTEC can help.

RE-USE/SALVAGE existing parts: cabinets, LEDs, solar panels, poles, ped. push buttons, antennas...

RETROFIT solar powered (DC) or AC systems

CONVERT from SIMA to SYSTEM 3000 IP/network clock (no annual fees or contracts)

REPLACE existing cabinet back panels: AC and solar powered

MAKE OPERATIONAL! School zone, pedestrian, RRFB and 24-hour systems

ELTEC—the right people with the right solutions for your SPOT DEVICES predicament.

Contact ELTEC or your local ELTEC Dealer for a quote that works with your existing system's hardware and software.
